## Insect Control

### *Natural Control Without Chemicals*

**What it does:**

I Must Garden Insect Control is a highly effective, chemical free way to repel and kill damaging insects. Protect indoor and outdoor plants, and prevent bugs from coming inside when transitioning houseplants back indoors after a summer outside. Kills on contact and controls local insect populations. There are no poisons, harmful chemicals or toxic glues in our products.

**Where to use:**

I Must Garden Insect Control can be used on your outdoor plants to prevent bugs from taking up residence in your garden. Start spraying with I Must Garden Insect Control regularly and say goodbye to plant damaging bugs.

**What it contains:**

I Must Garden Insect Control is blended with a combination of essential and natural oils, our unique formula effectively kills and repels insects from your plants.

**How to use:**

Spray top and undersides of dry leaf surfaces with a fine mist. Be sure to reach inside dense foliage. Allow repellent to dry for at least 1 hour before watering or rainfall.

**How often to apply:**

Repeat application every 15-30 days or as needed to maintain control.
