# Nourish-C

A Concentrated Ancient Humus Compost Extract

- May Increase or Enhance Micronutrient Uptake
- Provides Humic Acids

∞ **Nourish-C** is a unique conditioner derived from an extremely rare and highly decomposed organic humus deposit. The substrate in **Nourish-C** provides high levels of water soluble humic acids, comprised of decomposed animal and vegetative matter. The result is a robust substrate structure which may increase or enhance micro-nutrient uptake.

### Satisfaction Guaranteed

If you are not 100% satisfied, return the UPC code along with your sales receipt for a full refund.

Item No. PH21589

Net Weight 3.96 kg (8.73 lbs.)  
Net 1 Gal. (3.785 L)

### Light

The hours of light rays a plant receives each day as well as its intensity are specific for each species of vegetable and plant and will greatly influence the quality of plant health. Know your plants as well as light spectrum.

### Application Uses

**Nourish-C** may be used indoors/outdoors added to solutions for all hydroponic, NFT, drip, aeroponic, irrigation and continuous liquid feeding systems.

**Media uses: Nourish-C** may be used with all soil and soilless media, including Coco Coir, and is compatible with all nutrient programs. • Always check for pH and CF levels.

### Directions & Dosage Rates

**Shake well before using. Store in a cool, dry place. Do not store in direct sunlight.** For initial dose, add 2 oz. (60ml) for every 5 gal. (19L) of water. Thereafter, add 1oz. (30ml) weekly for every 5 gal. (19L) of water.

The content herein is to be used in conjunction with your regular nutrient program.

### Contains Non-Plant Food Ingredients

3%.....	Humic Acid
Derived from humus	
97%.....	Inert
100%.....	Total
