# Nourish-L

A Concentrated Ancient Humus Compost Extract

- May Aid in Nutrient Uptake
- Increases Water Retention • Provides Humic Acids

**Nourish-L** is a unique conditioner derived from an extremely rare and highly decomposed organic humus deposit. This rare earth substrate for **Nourish-L** provides high levels of water soluble humic acids, resulting in a robust substrate structure which may increase or enhance the ability of plants to absorb nutrients. **Nourish-L** also contains a rare mixture of natural carbon compounds — the ultimate food source for your soil and the soil's microorganisms. The unique deposit contains carbon compounds comprised of marine animal carbon compounds and vegetative carbon compounds.

#### Satisfaction Guaranteed

If you are not 100% satisfied, return the UPC code along with your sales receipt for a full refund.

WORD RIGHTS RESERVED

Item No. PH21233

Net Weight 3.96 kg (8.73 lbs.)  
Net 1 Gal. (3.785 L)

#### Light

The hours of light rays a plant receives each day as well as its intensity are specific for each species of vegetable and plant and will greatly influence the quality of plant health. Know your plants as well as light spectrum.

#### Application Uses

**Nourish-L** may be used indoors/outdoors added to solutions for all hydroponic, NFT, drip, aeroponic, irrigation and continuous liquid feeding systems.

**Media uses: Nourish-L** may be used with all soil and soilless media, including Coco Coir, and is compatible with all nutrient programs. \* Always check for pH and CF levels.

#### Directions & Dosage Rates

**Shake well before using. Store in a cool, dry place. Do not store in direct sunlight.** For initial dose, add 2 oz. (60ml) for every 5 gal. (19L) of water. Thereafter, add 1oz. (30ml) weekly for every 5 gal. (19L) of water.

*Do not use more than 50 concentrated gallons of this product per 1/2 (half) acre per year on your soil.*

*The content herein may be used in conjunction with your regular nutrient program.*

#### F1910

##### Contains Non-Plant Food Ingredients

0.25%.....	Humic Acid (decomposed plant residue)
99.75%.....	Deionized Water (inert ingredient)
100%.....	Total
